SUMMARY

Highly motivated Software Engineer with a B.Sc. in Computer Science (GPA 3.66) specializing in modern front-end development using React.js and Next.js. Proven ability to architect and deliver innovative, responsive web solutions, with a strong focus on user-centric design and efficient development practices. Eager to contribute to dynamic teams and build impactful digital experiences.

SKILLS

- **Domain Skills:** Frontend, Git, Github, Responsive Design, Backend Basics
- **Technical Skills:** Next.js, React.js, React Query, Redux, Context API, Formik, React Hook Form, Yup, Zod, Shadcn/ui, Tailwind CSS, Axios, Bootstrap, Typescript, SignalR, Javascript, CSS, HTML
- **Soft Skills:** Critical thinking, Problem-solving, Collaboration, Fast Learning

WORK EXPERIENCE

Front-End (Angular) Internship

July 2025 - August 2025

ITI, Tanta University

Tanta University

- Contributed to the development of an Angular-based web application, actively participating in team sprints and code reviews.
- Implemented responsive user interfaces, ensuring cross-browser compatibility and an optimal user experience across devices.
- Utilized Angular and related front-end technologies to build features, improving application functionality and user engagement.

EDUCATION

Faculty of Computer and Information, Tanta University

Tanta, Gharbia, Egypt

Computer Science Bachelor's Degree

September 2022 - June 2026

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Networks, Operating Systems.

GPA: 3.66/4.0

PROJECTS

[Rafiq - Down Syndrome Family Support Platform](#)

Rafiq: Developed a digital healthcare platform connecting families with therapy specialists, featuring session management, Activities, progress tracking, an AI assistant, community support, and real-time messaging. built with React.js, Formik, Yup, SignalR, Context API, React Query, Axios, and Tailwind CSS.

[Linku - Link Tree Platform](#)

A link-in-bio platform enabling creators, businesses, and influencers to consolidate their online presence into a single, shareable link. Features include custom usernames, and unlimited link additions, and a tiered model with a free core offering and a premium upgrade for advanced features like detailed analytics and QR code generation. Built with Next.js, Supabase, Stripe, React Hook Form, Zod, Shadcn, TypeScript, and Tailwind CSS.

[MyZoo - Veterinary Clinic Website \(Api is Down\)](#)

a veterinary clinic management system designed to streamline pet healthcare services. It's a digital platform where pet owners can discover clinic services, book appointments online, and manage their pet's medical records. built with Next.js, Next-Auth, TypeScript, and Tailwind CSS.

[TaskMaster - Task Management Application](#)

A team task management application designed to help organizations streamline workflows and collaborate efficiently. Admins can create and assign tasks to team members, set due dates, and track progress in real time. Employees can view their assigned tasks, update their status, and manage their personal profiles. Built with Next.js, Supabase, Typescript, and Tailwind CSS.
